Scope Limitation _____					

Item Number	Page	Step or Paragraph	Changes (Use DCN CONTINUATION SHEET for Additional Space)
1	2 of 10	3.0 3rd pa. last sentence	Change From: ...will be obtained by the subcontractor for further characterization... To:will be obtained for further characterization...
2	4 of 10	6.0 1st pa. second sentence	Change From: ...chemical results of previous soil and groundwater analysis... To:chemical results of previous soil, surface water, and groundwater analysis...
3	5 of 10	6.0 2nd paragraph	Insert the following sentence between 1st and 2nd sentences: Field monitoring for non-intrusive activities (e.g. surface water sampling) will include radiation monitoring prior to leaving potentially radiation contaminated areas.
4	7 of 10	6.2 1st pa. last sentence	Change From: ...will place their PPE in containers lined with plastic bags... To:will place their PPE in plastic bags while going...

Justification (Reason for Change - Provide Numbers To Reference Corresponding Items Above)

The above changes are required to bring the revised SOP back to currently approved practices for disposal of surface water monitoring PPE. As revised, addresses only the drilling activity PPE. With respect to (4), a lined container is much more than what required for two discarded sets of PPE.
